

SECRET

CONTACT REPORT

PROJECT: CADROIT

TIME AND DATE: 14 May 54 1830-2100

PRESENT: CARBOHYDRATE and []

PLACE : CARBOHYDRATE's home

1. CARBOHYDRATE reported that a member of the former [] had come back again to CADROIT and sent a follow-up letter to one she had previously written (was give to []). She complained bitterly that the previous letter had wound its way around and that [] had called her in to deliver a most lashing bawling out with the letter plainly visible on his desk. (Note: It was not only bad security that these people keep turning up at CADROIT, but it has certainly blown CARBOHYDRATE's US connections to have a letter written by a girl (who knows that [] is an American agent) given to CARBOHYDRATE and then have it turn up in [] possession. [] is sending this letter to REDCAP along with some info he has on the same subject,

2. CARBOHYDRATE mentioned that the Vopo Captain was gone, but his girl friend (the CADROIT MA's wife) was very upset. CARBO was instructed that if she should turn up again to caution her that the Vopo captain's being gone for a short time does not mean that he will be gone forever and that she should be patient. The problem of the husband will also be taken care of by CARBOHYDRATE who will attempt to maintain whatever relations there are at a level which will not cause anything to become blown. The wife is upset also because when the Vopo Captain was flown out, he took all of her clothes with him.

3. CARBO reported that the alleged Hahn (supposed to be a Soviet agent) could not be the CADROIT Hahn. No similarity in backgrounds.

4. The matter of alert plans were discussed. CARBO has (accompanied by [] sitting on the back of the former's motorcycle) visited the police units in the CADROIT area and their immediate supervisory branches. The proposal has been made that CADROIT pay for the establishment of an alarm circuit (the same type as used by banks) which has direct connection to the West Berlin central police radio station. As soon as the alarm is given, a radio alert is given and within 4 minutes a minimum of four squad cars will pull up to CADROIT. The cost for the installation is approx DM 600 and the rental is about DM 90 per month. If other organizations (DTLINEN?) take part in this, the monthly ~~xxxx~~ rental will be cheaper.

5. CARBOHYDRATE talked over the matter of guarding CADROIT at night and the matter of extra lights or an alarm system has gone into disfavor if an extra guard from the black uniformed police can be obtained with a dog. C. will attempt to make the arrangement

6. CARBO reported that he had had an expert of fire extinguishers come to CADROIT and survey the needs. Henard has, based upon this survey, ordered several new extinguishers.

NEXT MEETING: 18 May 54
